■ GETTING STARTED

1. DOWNLOAD the .ZIP file from Gumroad
2. EXTRACT ALL files (Right-click → 'Extract Here')
3. OPEN index.html in any browser (Chrome/Firefox recommended)

■ Pro Tip: Double-click index.html after unzipping!

■ WHY IMAGES WORK OFFLINE

- All images are EMBEDDED in the /imgs folder
- Uses modern format:
■ PNG/JPG (Universal compatibility)

■ TROUBLESHOOTING

If images don't appear:
1. Ensure you EXTRACTED the .ZIP file first
2. Never edit files directly inside the .ZIP
3. Open Dev Tools (F12) → Check 'Console' tab

■ Enjoy your template!
